

UWIN / Wireless Data for Utah Public Safety
AT&T Wireless' 'No Cost' modem orders need to be placed by April 16, 2004

The CDPD wireless data network is nearing turn-down (June 2004). AT&T Wireless has an unprecedented offer for **all** public safety departments and agencies within the State of Utah.

AT&T will replace your CDPD card modems with brand-new state-of-the-art Sony-Ericson EDGE PC Card modems at “no cost !” (\$499 value!) We will replace your CDPD rugged trunk modems with brand-new state-of-the-art Sierra Wireless GPRS modems with GPS or Enfora EDGE GPS modem at “no cost !” (\$1000 value!)

In addition- AT&T Wireless will provide new Sony-Ericson EDGE PC Card **modems for any new public safety data customer at “no cost !”**

The State of Utah WSCA AT&T Wireless Contract MA525 ultimately provides **Unlimited Wireless Data usage for only \$59.50 a month** (\$69.99 less 15% State discount).

On AT&T Wireless' new world standard GSM/GPRS/EDGE network our public safety customers are experiencing 100-130k realized throughput on our EDGE network with the PC Card (compared to 10k speeds with CDPD). GPRS rugged modem 30-50k.

AT&T Wireless' EDGE footprint includes all of the **greater Wasatch Front, the entire I-15 corridor, and most of I-80 and I-70 !** This means public safety department in Nephi, Fillmore, Beaver, Cedar City, St. George, etc. can use the AT&T Wireless EDGE network to access your own server and all your public safety data bases.

- **Free state-of-the-art wireless data modems-**
- **Unlimited use government data plan ultimately only \$59.50-**

Our AT&T Wireless Government Team is ready to help!
